THE OBJECTS FOR WHICH THIS Company is established are to carry on the business of Building and Contracting, and the Manufacturing of Doors, Windows, Mouldings, etc., by the aid of STEAM MACHINERY

In the erection of Frame Houses it has been ascertained that by the application of steam power and by purchasing all material at wholesale cash prices, a saving of at least 25 per cent would be effected. And now that White Pine has been found to exist in many parts of our coast a very profitable business may be done in Doors and Windows, as shown by the following estimates prepared from actual results

Cost of 100 four panel 1½ inch White Pine Doors, 6 ft 8 in by 2 ft 8 in, moulded both sides, $186.
Cost of same kind imported, $ 75
Cost of making 100 pairs Sash, 10x14, $170.
Cost if imported, $212
Cost of 10,000 feet 2½ inch Moulding, $115
Cost of the same imported, $250

Presuming that the Company will secure half of the contracting business of the city and neighborhood, and supply the chief part of the doors, windows, etc., used in the two Colonies, the following will be a moderate estimate of annual transactions:

	Amount.	Cost.	Profit.
Contract Work	$50 000	$37 000	$12 500
Doors and Windows	6 000	4 500	1 500
Mouldings	5 000	2 200	2 800
Turning and Job Work	5 000	2 000	3 000
Total	$66,000	$46,200	$19 800

Deducting for contingencies and expenditure not included in the above, say five thousand dollars, leaves a clear profit of fourteen thousand eight hundred dollars, equal to sixty per cent on the nominal capital of the Company. oc18

Colonial Secretary's Office, New Westminster, 22d October, 1864.

THE GOVERNOR DIRECTS IT TO be notified that it is his intention to bring before the Legislative Council a Bill revising the Land Laws of this Colony, and particularly as affecting the method of acquiring unsurveyed Crown Lands. From and after the date of this notice, until the question has been decided by the Legislature, all the Crown Lands of the Colony are reserved from pre-emption, and instructions have been given to the several Magistrates not to receive any further record of pre-emption, unless with the sanction of the Government. This sanction will be granted in every instance where it shall appear that the tranquility of the Colony, and the public interests, are not likely to be prejudiced.

By command,
CHARLES GOOD,
oc24 3m For the Colonial Secretary.

Colonial Secretary's Office, New Westminster, 27th September, 1864. }

THE GOVERNOR HAS BEFORE HIM A PROposal for the establishment of steam communication between Panama and New Westminster, and is of opinion that terms acceptable to the Colony may be secured if coal be found within a reasonable distance of the navigable portion of Fraser River.

Notice is therefore hereby given that a reward of One Hundred Pounds will be granted for the discovery of a seam of coal fit for steaming purposes, and capable of being worked with advantage, within one mile of the Fraser River, at or below Yale, or within a mile of Burrard's Inlet.

This reward may be increased should the coal be discovered within convenient proximity of the spot to which it is proposed that the steam vessels should resort.

The Governor in Council to be the sole judge as to whether the premium is to be awarded.

By command,
CHARLES GOOD,
se29 3m For the Colonial Secretary.

Colonial Secretary's Office, New Westminster, 5th October, 1864. }

WHEREAS, EVERINA RICE, COMmonly known as the "Scotch Lassie," was wilfully murdered at Richfield, Cariboo East on the 19th September last, by some person or persons unknown; Notice is hereby given that a reward of One Hundred Pounds will be paid by the Government to any person who shall furnish, after the date of this notice, such information as will lead to the apprehension and conviction of the offender or offenders.

By command,
CHARLES GOOD,

NOTICE.

—TO—

To Mariners entering Fraser River

BEACONS (FORMED WITH CLUSTERS of Piles,) having been constructed on the Fraser River Sands, the following sailing directions are published for general information.

On the South Sand there are 3 Beacons. On the North Sand there are 5 Beacons, numbered consecutively from one to eight.

No 1.—South Sand Head, placed in 7 feet low water. One half a Cable W. N. W. of Buoy, distinguished by a pole elevated 20 feet above the piles, on which is fixed a cask; the pole, cask, and one pile painted RED.

No. 2.—North Sand Head, half of a cable to the westward of Buoy, placed in five feet at low water distinguished by a large Diamond formed with boards, elevated on a pole 20 feet above the piles. This Beacon is all BLACK.

No 3.—North Sand, about half the distance between Chequered and Black Buoy; distinguished by white and black horizontal stripes; placed in 6 feet at low water.

No 4.—North Sand, nearly abreast of Black Top Buoy is a Black Top Beacon, 1 cable distant, placed in 5 feet at low water; the top being a black triangle, formed with board slats on a white pole, elevated 16 feet above the piles, which are whitewashed.

No 5.—North Sand, on the Spit, one and a quarter cable S. W. of Red Top Buoy, is a Red Top Beacon, which is placed in 5 feet at low water; distinguished by a large cask painted RED, elevated on a white pole ten feet above the piles, the upper part of the piles being whitewashed.

No 6.—North Sand, a cable distant N. N. W. of buoy distinguished by a large triangle, the apex of which is on the lower part of the pole, and formed with white boards, elevated 15 feet above the piles. This Beacon is all WHITE, and makes a conspicuous object either for entering or leaving the river.

No 7.—South Sand—is a Black Beacon, placed in 6 feet at low water, having only a St. Andrew's Cross elevated on a pole 10 feet above the piles.

No. 8.—South Sand, about a cable's length from No. 7, placed in 1 foot at low water, is a White Beacon formed with a St. Andrew's Cross, as above. As these Beacons, Nos 7 and 8, are intended to lead vessels of large draught over the Bar in the deepest water, they are here often alluded to as the Cross Beacons.

All Buoys and Beacons on the North side of the channel are to be passed on the port hand.

The instructions issued by Captain Richards, R. N., in the V. I. and B. C. Pilot, are still applicable for entering Fraser River. The Beacons constructed on the sands indicating the locality of the buoys, remove a great difficulty hitherto experienced by navigators in distinguishing the several buoys.

For vessels of large draught the Cross Beacons will be found invaluable, as by taking care to port sufficiently soon, so as to cross when in a line, they will lead over the Bar, carrying from 19 to 22 feet at high water, (in all other parts of the channel much deeper water will be found.) After the Red Top Beacon is brought in a line with the White Beacon, the Buoy may be with safety rounded, then steer in direction for the White Buoy and Beacon, and from thence to Gorry Point.

DR. POWELL'S CIVIC BILL.

Above all the nuisances with which Victoria has been inflicted during the present year the Municipal Corporation has certainly been the greatest. In a condition wavering between life and death, it has had just sufficient vitality to consume money without power to accomplish good. It has had rent to pay, with salary of clerk and other expenses, and yet beyond getting into two or three lawsuits and losing them, it has done nothing. We cannot lay the responsibility of this state of things exactly to the members; for they have worked under the most disheartening and disagreeable circumstances, and have been impeded in every step by an Act that gives them no power but to spend the public money; but we ask these gentlemen, and we ask the inhabitants generally, if they are willing to continue the expensive farce one moment longer than it can be avoided? Are they desirous that an institution which has satisfied nobody—that an Act which has created no end of mischief—should be renewed for ever so short a period on the flimsiest of pretexts? We think not. We believe the general feeling of the inhabitants on the matter is—the sooner the useless thing is dead the better. Let it be decently interred; but for the sake of public decency let us have no resurrection that will make the sepulchre, as in Hamlet, "ope its ponderous and marble jaws," to cast the body up again.

Dr. Powell, who has been one of our most useful members, has, in an ill-judged moment, introduced a Provisional Act for the election of Mayor and Councillors when the term of the present Council expires. It is said by one party that the bill is necessary, since the Chief Justice has declared the Incorporation Act invalid, while another party with equal confidence asserts that the decision did not interfere with the election clause and that therefore there is no necessity for the measure. With the difference between our legislators on this head we have nothing to do. All parties know that the Council as a Municipal body to levy taxes and carry on public works is a worse than useless institution. It is eating into the pockets of the property-holders by an unnecessary expense; and ordinary prudence would point to the necessity of terminating its career at the first possible convenience, rather than prolonging it. To go into a new election with no more effective machinery that the present will be simply to fill the ensuing Council with the worst class of men; for no competent and respectable citizen will allow himself to be placed in nomination. We are certain Dr Powell never for a moment contemplated such an effect from the introduction of his bill; yet we cannot see any other result.

A new Incorporation measure will shortly be introduced into the House, less cumbrous, less expensive, and more effective than the present unfortunate act. Let Dr. Powell withdraw his bill and give his valuable assistance towards the passage of the more practical measure, and he will confer an advantage upon the community. There is nothing to be gained, as we have already shown, by a new election under the present municipal disabilities. We have borne with the imperfections of the present act long enough to hail the virtual termination of its career with rejoicing. We have witnessed, under its operations, municipal institutions fall into contempt, and able men become disgusted with civic honors. All this is unhealthy and likely to result in driving respectable citizens from all active interest in local affairs. Do the members of the Assembly realize what such a state of things actually means? Have they ever lived in places where the "spoils" not the "honors" of office were the objects sought—where men had to throw off even the assumption of honesty or decency before they could become eligible candidates for municipal position? If they have not—if their experience has never brought them into contact with the lowest rabble of a city struggling with might and main for office—they have been living in a state of blissful ignorance, but one which will shortly meet, should Dr. Powell's bill pass, with an unpleasant though edifying shock. We wish to ascend rather than go down in the political scale, and to make our public positions such that the best men in the community will feel it an honor to be called upon to assume their labors and responsibilities. It is rather difficult to subscribe to the rather questionable doctrine which has been promulgated, that because we may have had inferior men in office, we should henceforward deprive ourselves of good ones; at the same time, however, we cannot shut our eyes to the fact, that once let the public positions of the country fall into bad hands, and the difficulty of applying a remedy to public abuses will be, if not insuperable, at least intensified in no ordinary degree.

ENGLISH MISCELLANY.

The working men of London propose to erect a statute to Shakspeare on Primrose Hill. Mr. Gladstone's name appears in the list of subscribers.

Steamers now run daily from Havre to Southampton, and Littlehampton, bi-weekly to Glasgow, Liverpool, and London, and weekly to Hull.

The Duke of Newcastle is in about the same state of health as when he left town. His grace is very weak, and does not take any out-door exercise.

At the Middlesex sessions, on the 7th, a man named John Barber was sentenced to six months' hard labour for indecently assaulting a young woman in a carriage on the Hammersmith Railway.

Weigh-House Chapel, Fish-street Hill, London, which is not without historical associations, is about to be pulled down, in order to make way for the Metropolitan District Railway.

Miss Nightingale, in whose health but little improvement has taken place, has left town for her annual autumnal residence in one of the healthiest suburbs of London.

The Earl of Harrowby has been speaking at Chipping Camden on middle-class education, regretting its deficiencies, and exhorting to more interest in the subject among the middle classes themselves.

Prince Humbert of Italy is expected to arrive in England on the 11th inst. During his stay he will reside with the Marquis d'Azeglio, the Italian minister in London, who arrived a few days ago from Spa in order to receive his royal highness.

On the first of November an act of parliament will take effect to amend the act for the regulation of chimney sweepers. From that day chimney sweepers are restricted from employing children under ten years of age, and are not to be accompanied in their occupation by persons under sixteen years old.

There is no truth in the report which has been circulated of the intention of Mrs. Yelverton (formerly Mrs. Forbes) to commence proceedings against her husband for a judicial separation. They are living together; but it is said to avoid curiosity they have assumed another name for a short time.—*Court Journal.*

It is said that the conductor of a Richmond (London) omnibus is a young man of high social position, who from some unexplained circumstance has taken to the road. Be it as it may, it is quite clear that the report has got widely circulated, the omnibus being much patronised by romantic young ladies, and to see them looking out for a "bus" is a little curious. The competition for a seat is great.

About sixty of the South African clergy, almost all in the dioceses of Capetown and Grahamstown, have signed a memorial addressed to their Metropolitan and to the Bishops of South Africa, in which they protest against Dr. Colenso resuming his episcopal functions, and declares that they cannot recognise him as a Bishop of their church, or hold communion with him should he return to his diocess.

Professor Anderson, the well-known conjuror, has returned to London after seven years' absence. His repertory of "magic" is of course more extensive than ever, but the speciality of his present entertainment is that he produces as professed illusions the phenomena on which so called spiritualists rest their claims to credence for their system. In short, he does cleverly and with certainty what they do clumsily and only under "favorable circumstances,"—*i. e*, when detection is not impending.

On Monday night, the 5th, about 12 o'clock, the merchantmen in the channel of Plymouth were startled by hearing loud firing, which was occasioned by Admiral Dacres having ordered the whole of the ships forming the Channel squadron to beat to quarters and open blank-fire. Although the orders were given at midnight, every man was at his post, and the decks cleared for action in six minutes after the order had been telegraphed to the various ships.

The bonded debts of the Corporation of London amount to £1,772,190.

The *Record* states that Mr. Spurgeon has retired from the Evangelical Alliance.

From an official document just issued, it appears that by the last return there were as many as 1,142,624 insane paupers.

Alterations are being made in St. James' park with a view to provide a ride for horsemen such as that of Rotton row in Hyde Park.

It is shown by a document just printed that last year 9,701,349 gallons of spirits were charged with duty.

One of the great features of the next season at Drury Lane will be the revival of "Cymbeline." The revival of that play was also one of the great features of the Drury Lane season a hundred years ago, which commenced in September, 1764.

In a week from this date Mdlle. Victoire Balfe (late lady Crampton) the daughter of our great composer, will espouse a grandee of Spain, who unites with his title of duke and a large fortune the best qualities of head and heart.

Intelligence has been received at Lloyd's of the total loss of the Russian steam frigate Sadninch, Admiral Cyraloff, off the coast of Cando. Three officers and 20 seamen were drowned; the rest of the crew were saved with difficulty. The frigate is a total wreck.

The Archbishops of Canterbury, York, Armagh, and Dublin have published an earnest appeal for the church in the colonies. They give extracts from the letters of colonial bishops asking for assistance, pecuniary and clerical, and the archbishops "beseech our brethren of the clergy" to preach one sermon annually and make a collection for Church of England missions.

There are five colonial bishops of the Established Church now residing in England, viz, Dr. C. H. Bromby, the recently consecrated Bishop of Tasmania, who is collecting funds and making other arrangements for the future welfare of his diocese; Dr. Hills, Bishop of British Columbia, who will return to his see at the close of the present year; Dr. G. Smith, Bishop of Victoria (Hong Kong); Dr. Austin, Bishop of Guiana; and Dr. J. W. Colenso, Bishop of Natal.

A NEW ZEALAND CROMWELL

[FROM THE MELBOURNE HERALD.]

Dunedin has just been the theatre of a popular demonstration, which verifies the adage that it is but a step from the sublime to the ridiculous. An attempt has been made to coerce the local Government and Parliament of Otago into a kind of wholesale retrenchment, in the form of the immediate dismissal of all the Government employees, and the expenditure of their salaries in finding work for the unemployed miners, mechanics, and others now suffering distress in that part of New Zealand. This attempt took the form of an open-air meeting, at which a person named James Gordon Stuart Grant was the leader of the movement, and its chief spokesman and journalist all in one. He led the crowd first to the superintendent's, or deputy governor's residence, and next to the Legislative Council, in the expectation of carrying his novel plan of instantaneous financial reform by a *coup de main*. But the little Parliament was not to be bullied by this sham hero, and they quietly gave him the alternative of a very humble apology for his silly escapade, or of fine and imprisonment. Grant has a small weekly publication in Dunedin, which he calls the *Saturday Review*, and from this paper we give a few extracts describing the scene. There had been two meetings—one on Monday, the 6th of June, at which resolutions affirming the necessity of the reform in the Government expenditure already referred to were passed, and these resolutions were taken by Grant at the head of the crowd to the superintendent, who transmitted them to the Legislative Council. The latter body declined to entertain them, and this brought Mr Grant—to use his own language—down upon them *a la* Cromwell. We shall narrate the rest in his own words:—

"We then, thus escorted, proceeded to the Council Chamber. It became very soon full to overflowing. The men behaved themselves very decorously. We waited till the members took their seats—till prayer was offered up by the Speaker, and till the minutes of the preceding day were read and ratified. Then we rose, and Cromwell-like, turned round to our body-guard, and reminded them of their vows. The decisive crisis had just arrived. We were filled with a variety of contending emotions. We were anxious to avoid any sort of disturbance. We trembled lest any acts of violence on the part of any hot-headed man might ensue. We also had doubts of the moral courage of our supporters. We, therefore, did just what Cromwell did two centuries ago, we turned round to the men in the body of the hall, and concisely said—'I am now going to present your most peaceful and respectful memorial.' By this action we wished to convey to the council that it would be their wisdom to allow us to read the resolutions, and allow them to be put on the table of the House. We humbly conceive that this action was a stroke of a masterly and pacific policy. The council had thus an opportunity of seeing the hopelessness of offering any obstructions to us or arresting us. After these few words addressed to the men who filled the body of the hall, the Speaker cried out, 'Order, order,' in a military tone of voice. We made an attempt to speak. We began to say 'Your honor.' 'Sit down, sir,' rejoined the Speaker. We again tried to speak, and said, 'Your honor, I am going ——' 'Serjeant-at-Arms,' said the Speaker, 'take that man into custody.' Now was the decisive moment. Had Cromwell's light dragoons hesitated for one moment after the Speaker ordered the Serjeant-at-Arms to take that man into custody, all would have been lost. We again began to say, when the Serjeant-at-Arms was approaching us, 'I am in the pursuit of my duty and I call upon you to protect me.' We were then escorted out of the hall and conveyed to a room below, in charge of the Serjeant-at-Arms. We were thus sacrificed in the presence of the men who vowed to protect us. Beyond hisses, stamping and groaning, after we were conveyed to custody, no efforts were made to protect us." After the lapse of an hour, the prisoners were taken to the bar of the House, and the hero in fustian made a very humble apology. Commenting on this occurrence in his *Saturday Review*, Grant says:—"Now that this agitation has come to a peaceful termination, so far as we are concerned, we candidly confess that it was an error of judgment on our part to expect sufficient moral support and personal protection in these colonies. It is not safe for any man to attempt to benefit his fellow-creatures in any such daring manner in a city of only 20,000 inhabitants. In London, and in London only, can a true patriot rely on the intelligent support, moral and physical, of the people."

PRINCE ALFRED.—We understand that the Racoon, with Prince Alfred and the Duke of Roxburgh on board, has arrived in Iceland. The Prince will make a few visits and return early in September to this country. His royal highness, who is an expert angler, killed 62 salmon during his short stay in Norway in the Duke of Roxburghe's fishing waters. The first afternoon he killed six fish, and on the two following days eighteen salmon each day, and on the fourth day, after going a little further up the water he killed twenty salmon. All of them were large fish, weighing from 16lb. up to 27lb. each.—*Edinburgh Courant.*

The Queen left Windsor for Balmoral at seven o'clock on Monday evening the 29th, and arrived at her destination at half-past four on Tuesday afternoon. At Perth her Majesty made a stay of about two hours to inaugurate a statue of the late Prince Consort. The ceremony was somewhat imposing and at its conclusion the Queen conferred the honor of knighthood on Lord Provost Ross. She expressed her high satisfaction with the statue, and complimented the sculptor, Mr. Brodie, on having secured an excellent likeness of the late Prince.—*Ib.*

BIRTH.

In this city, on Saturday evening, October 22, the wife of Mr. James Nealon Thain of a daughter.

DIED.

In this city, October 24, Mr. C. Lohse, aged 36 years, late of Holstein, Germany.

Friends are invited to attend the funeral from his late residence on Government street, between Yates and Johnson street, on Wednesday the 26th instant at 2 p.m.

Marriage in High Life.—A gentleman of this city received a letter by last mail mentioning that Baron Erlanger, of the well known and wealthy banking firm of Erlanger & Co., Paris, was on the 20th August married to Miss Slidell, daughter of the Confederate Commissioner to the French court. Miss Slidell is the young lady who is said to have boxed the ears of the Federal naval officer when she and her father were captured on board the famous British steamer *Trent*. Our informant describes the lady as one of the most beautiful women he has ever seen.

Another Hospital.—By an advertisement inserted in another part of our columns, it will be seen that Bishop Demers, not to be outdone in benevolence, has taken active steps to establish an hospital for the use of all classes and creeds, on his property in Collinson street, in the rear of the Catholic church. The bishop has given a site for the building, and collectors have been appointed to solicit the subscriptions of the charitable among our citizens.

The Alberni Indian Outrage.—Two of the siwashes who recently attacked and robbed a party of white men on their way down from Alberni were apprehended in town yesterday. The rascals had impudently come in to trade, and were observed and recognised in Store street by one of their victims. They were speedily in the hands of Sergt. Blake, who lodged them in gaol.

Gold at San Juan.—Intelligence from Foley's prospecting party on San Juan river reached the city yesterday. They are said to have obtained good prospects about 30 miles up the river, yielding from $4 to $10 per day to the hand. Another party a little further down the river have also found fair prospects.

A "Count Out" occurred in the House of Assembly yesterday, there being no quorum present. Mr. Selim Franklin and Mr. C. B. Young made their appearance immediately after the announcement, the latter gentleman being consequently too late to take his seat as member elect for the city.

Ogden Point Road.—A communication was received yesterday from the Colonial Secretary by Capt. Nagle, stating in reply to a petition from property-owners at James Bay, that tenders will be at once invited to the extent of $1,500, for the construction of a road from Ogden Point to Victoria.

Guard for the Mail Steamers.—The Brother Jonathan carried a guard of twelve U.S. troops, under the command of an officer, on her last trip to this city. Similar precautions will be taken henceforth with each of the northern steamers.

Saanich Election.—The Speaker has issued a writ for the election of a member to serve for Saanich District. A. C. Anderson, Esq., the Returning Officer, gives notice that the nomination will take place on Saturday next, at 11 a. m., at Fry's Hotel.

Government Stores.—The gunboat Forward, and the Enterprise were employed yesterday in conveying to Esquimalt the Government stores lately discharged from the John Stephenson.

The Police Inquiry.—The investigation with closed doors into certain charges preferred by Sergt. Willmer, late of the Police force, took place yesterday before the Acting Attorney General.

Departure of the Mail Steamer.—The steamer Brother Jonathan sailed from Esquimalt yesterday morning at half-past nine o'clock, carrying a large number of passengers.

Farewell.—A number of the Victoria Rifles escorted Mr. E. C. Waddington, late color-sergeant of the corps, to the mail steamer yesterday morning on his way to England.

Repairs.—The gunboat Grappler will shortly go on the ways at Lang's yard and be thoroughly repaired.

The City Council held no meeting last night.

The Legislative Council met yesterday and adjourned till to-morrow.

THE CRUISE OF THE KATE—ONE OF THE CREW MISSING.

The schooner Kate, Capt. Howard, left Victoria on Tuesday last to Port Angelos, bound to Seattle for lumber, but in consequence of dense fog and calm weather did not reach Port Angelos until Sunday evening. Capt. Howard was here informed by the Deputy Collector that he could not be allowed to proceed further unless he took with him an Inspector, which would cost $3 15 per day, adding that it would be a precedent for other small craft to be allowed to go up the Sound, and they were known to be engaged in illegal traffic. Capt. Howard did not choose to incur this expense, and consequently had to return to this port.

The following particulars of the sudden disappearance of one of the crew is from the Captain's log:

Friday, Oct. 21st—Calm weather with thick fog. After breakfast, found that one of the crew, named David Middleton (late seaman on board the schooner Domitila), was missing. After searching round, found his knife on the bow-sprit. He must have slipped over the bows very quietly, for had he fallen overboard some of us must have heard it. I had not observed anything out of the way with the man. He kept his watch and called me regularly, but the crew tell me he had an idea that I was taking him across the Sound to put him on board some ship in which he had shipped, and he was determined not to go in her. I conclude, therefore, that he tried to swim on shore, as the vessel was only a few hundred yards from land, but the fog was too thick to see anything. This occurred about 10 miles below Port Angelos on an uninhabited part of the coast.

SUMMARY COURT.

His Honor Chief Justice Cameron took his seat this morning and disposed of a few unimportant cases.

Hibben v. Bowman.—This was an action for the value of a gun lost in the transmission between Victoria and Saanich, in one of Bowman and Halsey's stages. Mr. Drake appeared for the plaintiff, and Mr. Bishop for the defendant. In giving his decision His Honor said the delivery had been clearly established in evidence, and the Court had no alternative but to give a verdict for the plaintiff. The loss was assessed at $100, in consideration of the defendant having used every means to ensure its recovery.

Barry v. Mrs. Ross.—This was an action for the recovery of $14 50, being one month's interest on a mortgage. Mr. Dennes for the plaintiff and Mr. Green for the defendant. For the defence it was urged that a man of the name of Walton had improperly executed a power of attorney, and that Mrs. Ross had never allowed him to borrow the money. Moreover, the plaintiff had not used ordinary caution in dealing with this class of securities. His Honor decided that, inasmuch as a question of title was involved, the case must go to a higher tribunal.

Mayer v. Emenck.—Action to recover $22 90 for goods sold. Mr. Dennes appeared for defendant. Pleas, set off and payment. The plaintiff not appearing he was nonsuited.

The Court will sit again on Wednesday next.

The Theatre.—Mrs. S. M. Irwin's benefit took place last night on which occasion she appeared in "Satan in Paris" and "Faint Heart never won fair Lady." Of the drama we cannot speak very flatteringly. The fair beneficiary appeared at home in her various garbs, but the piece dragged through somewhat flatly and appeared to need more rehearsing. Myers' drolleries afforded some relief, and the acting of Mr. F Percy in the character of the Count Vanille was a decided improvement on his previous efforts. The pretty comedy which followed displayed better acting; Mrs. Irwin made a most captivating Duchess, and Mr. J. H. Taylor, as Ruy Gomez, both looked and acted the Spanish Cavalier to perfection, Mrs. Leslie making a right royal King. To-night the celebrated character actor, Mr. Chas. Wheatleigh will make his *debut* before a Victoria audience as old Peter Probity, in the two act drama entitled the Chimney Corner, or the Lost Legacy; and as Bagshot in a Bull in a China Shop. We would invite all who appreciate good acting to attend.

St. Clair's Concert.—The complimentary concert tendered to Professor St. Clair will take place at the Lyceum to morrow evening. The Germania Sing Verein and several professionals and amateurs have offered their services on the occasion.

The Exploration Committee will meet to-day at 12 o'clock, to receive the final report of the expedition and wind up the undertaking for this year.

We are indebted to Captain Jones, of the Jenny Jones, for late Olympia papers.

GREAT UNION VICTORY.

Editor British Colonist:—I wish to call your attention to a *brave* and *gallant* action performed by some heroic individual last evening. During my temporary absence from the Confederate Saloon a descent was made on the premises and the Confederate flag, which was hoisted on the staff, was ignominiously carried off. The cowardly rascal left behind him the *rope* halyards, the only article of which he was really deserving. Should his remorse for the contemptible action become intolerable he may be accommodated with a few feet of the rope on applying at the Confederate Saloon.

J. J. Shapard.

PATRIOTIC DEMONSTRATION IN SAN FRANCISCO.

A tremendous union demonstration came off in San Francisco on the evening of the 15th inst., of which the city papers contain long accounts. The city and shipping in the harbor were decorated with flags and banners, deputations from the neighboring towns swelled the crowds in the streets, and the whole city seemed given up to general rejoicing. At 5 o'clock all business was suspended, and at 6 o'clock a salute of 100 guns gave the signal for the assembling of the people at the appointed rendezvous on Market, Kearney and Montgomery streets. The *Bulletin* has the following graphic description of

THE PROCESSION UNDER WAY.

This movement was the signal for a general blaze of rockets, Roman candles, blue and red lights, all along Kearney, Dupont, Stockton and Washington streets, lighting up the murky atmosphere more brilliantly than ever, and the thousands of flags that streamed and fluttered in every direction. A car drawn by four horses carried a small cannon named the "Swamp Angel," which was fired occasionally under the direction of Capt. Harvey Lake, and led the column. Following was a body of 100 horsemen, escorting Gov. Low, Maj. Gen. McDowell and staff, and Mayor Coon, and led by Col. J. W. McKenzie, the Grand Marshal of the occasion, and a body of aids. Then came a fine brass band. After that the members of Howard Engine Company, in their fire caps and capes 108 strong—only one member of the company being absent. The Howards were partly mounted. Next the Union Central Club, and State and County Central Committees. The twelve District Union Clubs followed in their order, making up the first four divisions, each division led by its Marshal and a band of music, the men marching four abreast and the horsemen six abreast. The remaining four divisions were composed of the Hibernian and Lincoln and Johnson Club; Spanish American and German Union Clubs, bearing the colors of their different nationalities besides those of their adopted country; the Italian fishermen, with a felucca on wheels—its sails spread and colors flying; St. Francis Hook and Ladder Co.; a large band of sailors and coasters; Commodore Poore and Lieutenant Seeley, of the United States war steamer Saranac, with 70 of her crew, the guests of the shipmasters and sailors; a delegation of nearly 300 from Petaluma; a delegation from Oakland; the carriers of the Union newspapers of San Francisco, nearly 80 strong; the expressmen and teamsters of the city, mounted, about 400 strong, and making a splendid appearance; the workmen at the Miners' Foundry, who bore a transparency, saying "Nary broom;" the Grant Club; the 2d Cavalry California Volunteers; discharged Soldiers of the United States; a number of deputations representing various Trades, some bearing appropriate emblems; the State Guard, about 100 strong; Members of the Board of Supervisors and Education; various public officers and many ladies in carriages; an omnibus filled with young girls representing the States, and singing patriotic songs, a number of trucks bearing various illustrative designs, such as wooden guns from Manassas, loads of brooms for sale cheap, etc. The rear was brought up with a large body of horsemen and a long string of carriages. The union and its defenders, the President and his associates, the Army and its generals, the Navy and its gallant captains, the battle-fields and victories of the war, the hopes, purposes and principles of the loyal masses, were all inscribed on their luminous banners. One transparency was in the shape of a huge ball, and kept revolving over the prostrate form of bogus Democracy. It is impossible, in the space at our command, to attempt a description of the ingenious devices and pertinent mottoes on those transparencies; suffice it to say that they expressed in manifold fashion the common determination to re-elect the present Administration, and to fight the war through till treason is subdued and the Union is restored and made free for all, while the utmost scorn and contempt was expressed for all who would surrender to traitors or consent to the dismemberment of the Republic. There were borne in the procession besides many hundreds of Chinese paper lanterns of a ruddy color, printed with the American eagle. There was hard on to 8,000 persons in the procession, and nearly half of them carried torches, Roman candles, and bengola lights, while others carried the starry flag, which streamed in glory above the transparencies or fluttered in miniature in the hands and hats of the men in the ranks. Rockets were discharged at frequent intervals from many of the vehicles. In short, there was nothing lacking to make the pageant far the most splendid and imposing ever seen on this coast, and one seldom if ever surpassed in the cities of the Atlantic. But no Eastern city could turn out such an array of manliness in proportion to its population. No other town of 100,000 souls could put into a procession such a magnificent display of physical vigor, moral worth and political soundness.

Arrival of the Jenny Jones.

Later from the East.

DATES TO OCTOBER 19TH.

BATTLE in the SHENANDOAH VALLEY.

Sheridan Captures 43 Cannon and many Prisoners.

Portland, Oct. 22, 1864.

San Francisco, Oct. 21.—Gold in New York on the 16th was quoted at 209. Greenbacks 49 to 50.

Secretary Fessenden has ordered a rigid investigation in Custom House affairs on this coast.

Cedar Creek, Va, Oct. 19.—Lieutenant General Grant:—I have the honor to report that my army is at Cedar Creek. We were attacked this morning before daylight, by the enemy. My left was turned and driven in confusion. We lost twenty pieces of artillery. I hastened from Winchester and found the army between Middletown and Newton Bend, having been driven back four miles. I took affairs in hand quickly, and uniting the corps formed a compact line of battle. In a short time we repulsed the attack of the enemy, which was done handsomely about 1 p. m.

At three, after some changes of the cavalry, from the left to the right flank, I attacked the enemy with great vigor, routing and driving them, capturing, according to last accounts, forty-three pieces of artillery and very many prisoners. We have not yet ascertained the number of casualties or losses of the enemy. Trains, ambulances and cassions in large numbers are in our possession. The enemy burned some of the trains. Gen. Ramseur is a prisoner in our hands and severely wounded. I have to regret the loss of Gen. Bidwell, killed, and Gens. Wright, Grover and Rickets wounded. Affairs at times looked badly, but by the gallantry of our brave officers a disaster has been converted into a splendid victory. Darkness interfered and prevented greater results. We now occupy Strasburg.

Sheridan.

The enemy's force is not yet reported, but the boldness, vigor and success of the attack, strongly indicates heavy reinforcements having been sent from Richmond. With the expectation of fulfilling his boast, Longstreet has assumed command in person, and confidently hoped to overwhelm with disaster the union cause.

(Signed) Stanton.

St. Louis, Oct. 19—One hundred rebels under Col Rathborn, entered Lexington to-day. All males between 17 and 50 are mustered into the Confederate army.

Five hundred men, under Shelby, captured Paris, in Monroe county, and are conscripting all able bodied men for the rebel service. Friday, 200 rebels entered Brunswick. Eight hundred were reported at Keysville the same day.

There is an expedition evidently against the Hannibal and St. Joseph railroad, with the intention of destroying it.

The garrison at Glasgow fought bravely for five hours, but were obliged to surrender.

EUROPEAN SUMMARY

Nothing definite has taken place in relation to the settlement of the Dano Germanic question. Of rumors there is an abundance; of reliable facts none. It is, however, generally admitted that Prussia is to be enriched territorially at the expense of the Danes; but the precise share of spoil which will fall to each of the crowned robbers has yet to be agreed upon.

It is reported that the Princess Dagmar, the second daughter of King Christian, will shortly be betrothed to the Czarewitch.

The Danish inhabitants of the Duchies have just presented to the King of Denmark a petition, in which they deplore their forced separation from Denmark, and their compulsory union with an enemy which hates everything that is Danish.

"Our children," they say, "will be forced to bear the livery of Germany, and perhaps to follow her banner against Denmark, whose good and ill fortune have been shared by their ancestors for more than a thousand years. Our sacrifice is, however, not yet consummated; we do not yet recognise any other sovereign than your Majesty. We adjure you therefore, Sire, to take pity on our fate, and to seek in your wisdom a means of saving us from the insatiable ambition of Germany."

The Romish convents in Poland are to be abolished, and their funds applied to the promotion of education.

Russia is rapidly increasing her fleet, and if war should break out will prove a formidable opponent. A few days since an iron-clad frigate, named the Sevastopol, said to be nearly equal in size to the Black Prince and the Warrier, was launched at Cronstadt. Her engines will have a nominal force of 800 horse power; she will be armed with steel guns of the largest calibre, and her prow will carry a formidable beak.

From Melbourne we have a telegram stating that on the 25th of June the Maories were attacked and defeated by the British troops. The loss of the Maories is estimated at 200 men, a distinguished chief being among the killed.

Advices from Saigon to the 26th of July announce that a new Franco-Annamite treaty was signed on the 15th of that month. A French protectorate is to be established in six provinces of Lower Cochin China; three important ports are to be opened on the Annam coast, with the concession of nine kilometres of ground in the vicinity of each port, where French merchants shall be at liberty to travel and trade; entire liberty is granted to French missionaries to propagate Romanism throughout the whole kingdom; and an indemnity of 100,000,000f. is to be paid to the French Government.

Reverse of Fortune.—Wm. Gingell, a laborer in the service of the London Victoria Dock Company, was brought before Mr. Paget at the Thames police office, charged with stealing 43 cigars. The prisoner, who was much affected, was formerly a gentleman of fortune, and in four years squandered a fortune of £25,000. After several vicissitudes he became a day laborer. His family at home are in great distress, and his wife was confined only four days ago. He was sentenced to two months' imprisonment with hard labor.—*English Paper.*

Fortifications at the Mouth of the Columbia.—General Alvord and staff accompanied General McDowell to the mouth of the Columbia river and inspected the fortifications at Cape Disappointment and Fort Stevens, near Point Adams. They were found in a very satisfactory state of progress. Fort Stevens is named in honor of the late Gen. Isaac I. Stevens, of Washington Territory. We are informed by Gen. Alvord that Capt. Elliott in his work at the mouth of the Columbia has performed valuable services, very important to the State of Oregon and all the Territories bordering on the Columbia river. The fortifications of Scarborough Point, opposite Point Adams, will be the work next commenced.—*Pacific Tribune.*

The Telegraph.—By the last of next week it is expected the telegraph will reach Seattle. From thence the main line will follow down the beach on the east side of the Sound to New Westminster. This course is taken as it avoids the necessity of cutting a trail through the timber, and is not so liable to be injured by fire, besides it can be put up and kept in repair with boats. Mr. Haines is now engaged surveying this part of the line, and they intend having it completed to New Westminster by the 1st of January. Here it will connect with the great Asiatic American Telegraph. From Seattle a branch line will be run to the principal points on the west side of the Sound to Victoria.—*Pacific Tribune.*

The Pioneer Pieman, who is one of the pioneers of the city as well, having dispensed his delicacies—at $2 each—in the Colonist establishment and in the city generally in 1858, has again commenced his nightly rounds for the winter of 1864-5. The pie trade is not so profitable now as of old, therefore the best quality is sold at the moderate price of one "bit." *

A CARD.

TO THE PUBLIC

LADIES AND GENTLEMEN,—IT IS only one month since I offered through the advertising columns of a morning paper to be the Family Fishmonger of this city. I find by experience that it is desirable that some person should take up the business and attend to it regularly. I have acted justly in my dealings and tried to merit the patronage which some of the best families in the city have afforded me. For the success which I have already met with I beg to offer my sincere thanks, and acknowledge that the approbation of my customers has often seemed to make my burden lighter. It shall be my constant study to deserve their good will, and to win their confidence by integrity and courtesy. It has always been my maxim in business to make my customers' wishes my pleasure.

HENRY BURSTOW,
oc10 1m* Licensed Fishmonger.

Holloway's Ointment and Pills.—Female Complaints—Climates have their particular disorders; age has infirmities peculiar to it; seasons have their specific diseases; but woman, in all climates, at any age, and in every season, is liable to special complaints, resulting from fashion, inattention, or debility of consutution. For all such sufferers there are, in Holloway's remedies, present ease and future comfort, while the natural function of every organ is fairly established by them. Under their corrective sway the greatest improvement speedily appears—the body is developed, and the spirits rise. Into Holloway's preparations not a trace of mercury, or other noxious ingredient ever enters; hence the parent, guardian, or patient, need hold no counsel before commencing these remedies.

The Progress of Dental Science.—No department of practical science or of operative art has made such signal progress within the last few years as that connected with the preservation, beautifying, and restoration of the teeth. Not only do we observe the success with which modern manipulation has remedied and adverted all kinds of malformations in the young, but we see decay arrested in the outset, all its evil consequences securely prevented, and that most provoking of pains, the toothache, provided against by the simplest mechanical means and without one of those mischevious drugs which our forefathers have been accustomed to fly to in their agony, to the utter destruction of what remained sound. We owe a large share of modern improvements to Messrs Gabriel, the celebrated Dentists of London, Liverpool, and Birmingham, who show some exquisite specimens of workmanship at the International Exhibition. The white enamel stopping is proved to be faultless, whilst the most beautiful imitation of the natural gums and teeth (in the complete or partial sets), is to be found in their new patent Osteo Eidon—the only substance which is entirely free from noxious elements (coloring matters) and of which the adhesion is at the same time secured without any mechanism whatever. We are glad to hear that Messrs Gabriel very courteously throw their laboratories open to public and gratuitous inspection.—As may be seen by reference to our advertising columns, Messrs. Gabriel supply Artificial Teeth and Gums on their patented system, irrespective of distance or climate.

Holloway's Pills.—Liver complaints and disorders of the bowels.—It is impossible to exaggerate the extraordinary virtues of this medicine in the treatment of all affections of the liver or irregularities of the bowels. In cases of depraved or superabundant bile, these Pills, taken freely, have never been known to fail. In bowel complaints they are equally efficacious, but they should then be taken rather more sparingly, for every medicine in the form of an aperient requires caution when the bowels are disordered, though a gentle or more genial aperient than these Pills, in moderate doses, has never yet been discovered. If taken according to the printed instructions they not only cure the complaint, but improve the whole system.

Strengthen the System.—The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

DR. HOSTETTER'S STOMACH BITTERS.

Debility, from whatever cause arising, may be cured, in whatever manner it may have been wasted may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.—Sold by Druggists and dealers everywhere.

Holloway's Ointment and Pills.—Marvellous cures of sciatica, stiff joints, paralysis of the limbs, and other crippling diseases of the bones sinews, and muscles have been accomplished by Holloway's Ointment. It is the only Unguent which produces any impression on these complaints. The pills also work wonders. The Ointment and Pills should be used at the same time, for the action of the one is greatly assisted by that of the other. Why should any human being suffer from the above-mentioned maladies, when Holloway's Ointment and Pills are to be found in every city and town in the world? These noble medicaments are composed of rare balsams, and are as benign and safe as they are powerful and efficacious.

oc3 1w

To the Electors and Inhabitants OF THE CITY OF VICTORIA.

GENTLEMEN,—THE TIME FOR the annual Election of Mayor and Councillors is now fast approaching. At the earnest request of many voters of the city, I am again induced to offer myself as a candidate for the Mayoralty. Having already served you in that capacity for over two years, and having stated at the last Municipal Election that I should not again ask your suffrages as a candidate for civic honors, I deem it my duty towards you to state my reasons for again allowing myself to be nominated as a candidate for office.

At the time of the last election I, in common with the Municipal body generally supposed that there was sufficient power granted under the 'Incorporation Act' to allow the Mayor and Council to continue the works then commenced and partially completed; and also to make many further improvements for the general benefit, such as a general sewerage, the grading and macadamizing of many streets which the traffic and commerce of the public absolutely demand; the lighting of the principal streets with gas, and other important improvements which were then in contemplation. But the decision of the Honble. Chief Justice in the suit of the "Corporation vs. Ring," had the effect of rendering the Council powerless during the past year for any thing useful, and prevented the carrying out of any of the numerous improvements intended. During the first municipal year the Corporation incurred a liability in the shape of a loan, for the payment of which as yet means have only been in part provided. The proceeds of that loan were expended in making streets; and no doubt you, fellow electors, feel with me that the liability thus incurred should be promptly and faithfully met, and I had hoped that during the past year such measures would have been adopted by the Corporation as would have placed the repayment of the loan beyond doubt, but owing to the Incorporation Act being held to be invalid, such measures were out of our power. In consequence of these unlooked for and unforeseen difficulties, I have been unable to assist in carrying out those measures which I promised to support when last before you, and have consequently concluded to offer you my services for another year, contrary to my expectation. Had the means been at the disposal of the Corporation, doubtless all the important measures I have alluded to would have been carried out, in which case I should not have felt myself at liberty to have asked your votes again this year.

The members of the Legislature for the city and the Government having pledged themselves to introduce during the present session of Parliament such amendments to the Incorporation Act as will make it a useful bill, I am convinced that the next Council will have it in their power to render important services to the city; and if you do me the honor to return me, I shall strenuously endeavor to maintain the credit and honor of our City, at the same time I shall oppose to the utmost any excessive taxation or any taxation beyond actual requirements, holding as I do that moderate and equitable taxation with the greatest economy in expenditure is of the utmost importance at the present time.

If returned I shall as heretofore endeavor to serve you faithfully, and if I occasionally err it will be from the head and not from the heart.

I have the honor to be,
Gentlemen
Your most obedient Servant,
THOMAS HARRIS

To the Citizens of Victoria.

GENTLEMEN,—AT THE WRITTEN request of a large proportion of the members of the House of Assembly, as also the personal solicitation of various influential citizens, I beg to offer myself as a candidate for the Mayoralty.

The Provisional Act of 1863 will be inoperative on the 30th of the present month, and the Incorporation Act of 1862 will be then alone in force, under which the election of a Mayor and Council is valid.

The Act of Incorporation of 1862 can be worked and made subservient to many needful improvements in the City, whilst the more recent legislative enactment as to the one half of one per cent tax on real estate (which is now paid to the Colonial Treasurer), will furnish sufficient means to liquidate the present City liabilities and leave the corporate revenue for 1865 free.

Should you elect me I shall take means to reduce the expenses of the corporation very considerably, as also to suggest to the Councillors the urgency of equalizing the taxes, that they may be a lighter burden to the poor man.

When serving as senior Councillor, for nearly 15 months, my sole object was the good of the citizens, and you may rest assured if you make me your Chief Magistrate, I shall strive, without fear or favor, to do my duty faithfully.

I have the honor to be,
Gentlemen,
Your most obedient servant,
JOHN COPLAND.

Richfield, 22d August, 1864.

DR. HOSTETTER'S
STOMACH BITTERS.

THE OPERATION OF THIS PALAtable remedy upon the stomach, liver and excretory organs is singularly soothing and conservative. It regulates, recruits and purifies them. Dyspepsia in all its forms yields to its control and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutricious blood, and nutricious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the other fluids of the body purified?

Dr. Hostetter's Stomach Bitters.

Will accomplish this desirable revolution in the system regulating the secretions and extretions, giving tone to the animal juices which dissolve the food, strengthen every relaxed nerve, muscle and fibre, and bring the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured, strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthful invigorant. For indigestion and all its painful effects, bodily and mental, they are a positive specific.

A Word to the Aged.

In the decline of life the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters,

As an invigorant and restorative, immediate in its beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and acts like a charm upon the spirits.

For Females.

Thousands of ladies resort to it as a remedy for hysteria, fluttering of the heart, nervous headache, vertigo, general debility and all peculiar disturbances and derangements to which, as a sex, they are subject. It cheers and enlightens the depressed mental powers, as well as strengthens the body, and its use is never followed by any reaction.

ALL CURES MADE EASY!!

—BY—

Holloway's Ointment.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage: the most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout and Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm, and other Skin Diseases.

After fomentation with warm water, the utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach; consequently in many cases time is required to purify the blood which will be effected by a judicious use of the Pills. The general health will readily be improved, although the eruption may be driven out more freely than before, and which should be promoted; perseverance is necessary.

Sore Throats, Diptheria, Quinsey, Mumps and all other Derangements of the Throat.

On the appearance of any of these maladies the Ointment should be rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat: this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula, or King's Evil, and Swelling of the Glands,

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure, the liver stomach and bowels being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Chiego-foot	Fistulas	Sore-throats
Bad Breasts	Chilblains	Gout	Skin-diseases
Burns	Chapped Hands	Glandular	Scurvy
Bunions	Corns (Soft)	Swellings	Sore-heads
Bite of Mos-quitoes and Sand-Flies	Cancers	Lumbago	Tumours
Coco-bay	Contracted and Stiff Joints	Piles	Ulcers
Scalds	Elephantiasis	Rheuma-tism	Wounds
			Sore Nipples
